I personally benefit from listening to XM Satellite Radio and its traffic and weather channels. XM Satellite radio provides me with a very wide variety of music and programming. Furthermore, this quality and variety IS NOT available anywhere else on the radio dial. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear and listen to. I Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
